Alumil > SMARTIA
FC50 Fencing

The fencing solution to complete the outdoor surroundings of your choice

SMARTIA FC50 is a complete aluminium fencing system, with horizontal louvers attached on the mullion on one or both sides. Thanks to its extra reinforced profiles and anchoring, the system offers enhanced strength, allowing very large construction dimensions, with no visible connection points. It offers a continuous and minimal effect of high aesthetics, a fencing which highlights the whole building and the surrounding space of yours.

Incomparable advantages

- / Elegant design with minimal aesthetics.
- / Wide variety of solutions to meet all specific needs.
- / Top strength, much higher than relevant specifications.
- / Structures of quite large dimensions.
- / Great ease of fabrication.

Technical characteristics

- / Selection from five (5) louvers.
- / Louvers mountable on one or both sides.
- / All fixing points are not visible.
- / Adjustable anchor base and mullion.
- / Special design for enhanced robustness.
- / Single- and double-leaf hinged gates.
